

Year 4 - What's in Front of You?

Grove house Values:
Compassion and Courage.

The Big Idea – We will be exploring the different communities we belong to and how we contribute to them. Through physical geography and exploring the area around us we will learn how to use a map to identify the different parts of the community around us.

Entry Point – Can we work as a team? Through team-building exercises and games we will be looking how to co-operate and work together to complete the challenges we are faced with.

Are Year 4 ready for the challenge?

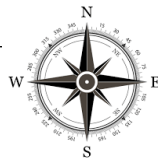

Our Class Novel is:
Alex Sparrow and the Big Stink.

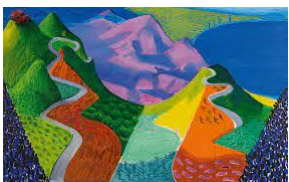

As Historians we will explore the history of where we live and learn about events which influenced changes.

As **geographers** we will be using and understanding maps. We will also be discovering and discussing different geographical features.

As **artists and designers** we will be exploring and developing our own artistic style by using different techniques and materials.

Our **P.E.** lessons will be on Thursday where we will be developing their netball skills. Please make sure your child comes to school in their PE kit.

As **computer scientists** we will be creating, using and understanding coding. We will be thinking about where and why coding is used in our everyday life.

As **scientists** we will be shaking it up and exploring the different states of matter. We will investigate how to change different states of matter. We will be experimenting and analysing our results.

In **PSHCE** we will be learning about Me and My Relationships. This means we will be reflecting on our relationships with those around us and exploring the different emotions we can feel.

In **religious education** we will be thinking about whether it possible to make everyone happy?
