Thurs	<p align="center"><u>Miles and Kilometres</u></p> <p>Watch the video on Google Classroom and complete the pages in your workbook</p>	<p align="center">Reading task</p> <p>Read the extract from our new novel 'Crater Lake' by Jennifer Killick and complete the questions.</p> 	<p>Can you think of any other words which use the prefix over?</p>																				
Fri	<p align="center"><u>Imperial Measures</u></p> <p>Watch the video on Google Classroom and complete the pages in your workbook</p>	<p align="center">Reading task</p> <p>Read the extract from our new novel 'Crater Lake' by Jennifer Killick and complete the questions.</p>	<p>Ask someone in your house to give you a mini test or complete the games on Spelling Shed!</p>																				

You can also practice your times tables on TT Rockstars, keep checking for battles between the Year 6 classes! You can even send a challenge to your teachers!

Please remember to check Google Classroom for your Google Meeting with your teacher and some other children in your class.

Monday - Design and Technology

Today you gave a very exciting D&T task! We would like you to design a healthy meal which you are going to make next week at home! This could be:

A delicious curry with vegetables

A pasta dish with vegetables

A vegetable stir fry

or something simple such as beans on toast!

These are just some examples and you might have some different ideas.

Today you are going to write the recipe for your meal and to plan the ingredients and amounts you will need. There is an example recipe in your work pack to follow!

Thursday - Assembly

Each week, one of your teachers will record an assembly and put it onto your Google Classroom. Watch the assembly and complete the follow up task given at the end.

Google Classroom can be downloaded as an App on Smart phones, Xbox and PlayStation.

On Friday afternoon, celebrate what you have done in the week. Can you share some of your amazing learning on our school Facebook or Twitter page? Reflect back on everything you have learnt and give yourself a HUGE pat on the back! Well done!

Home Learning

Week Beginning

22nd

February 2021

Tuesday - Science

This half term, we are going to be learning all about classification of plants and animals. To begin our topic, you will be researching a very famous scientist, Carl Linnaeus.

Create a profile (using PowerPoint, or paper) all about Carl Linnaeus. You should cover the following things in your profiles (you may want to do one slide for each). Use the links in your work pack to help.

- Early Life
- Family
- How did Carl Linnaeus learn about plants & animals
- Travel and Taxonomy

Use your profile to complete the paragraphs that are included in your work pack.

Wednesday - Geography

Today, we are going to be learning all about the 8 points of the compass. You are probably familiar with the directions North, East, South and West but what about the other 4 compass points?

Being able to use the 8 points of the compass correctly is a really useful life skill for lots of different reasons, for example when travelling between different places!

Most smartphones have a compass built into them which you can use to complete today's activity. Use the compass on your smartphone to complete the activity in the work pack.
