Part A: Pupil premium strategy plan

Statement of intent

The key principles to our strategy plan is to promote inclusive practice in all areas of school, making the most of quality first teaching for all children and targeted intervention where appropriate.

Grove House Primary School will use the available funding effectively so that:

- Attainment, progress, attendance and participation levels of disadvantaged pupils in the school year 2022- 2023 improves on the 2019 school figures for disadvantaged pupils.
- The school outcomes in all measures continues to close the gap between non-disadvantaged and disadvantaged.
- The health and wellbeing of disadvantaged pupils is prioritised.

The current pupil premium strategy plan will target funding on:

- Additional SEND teachers to support children with complex needs
- Tutors for identified pupils
- Pastoral support for identified pupils in school to improvement wellbeing and readiness to learn
- Pastoral support to parents and family members to improve educational support at home.
- Although we target our pupil premium funding at eligible pupils, we also use the funding to target other pupils with identified needs who may not be eligible for free school meals. Evidence from across the English school system shows that using pupil premium funding to improve teaching quality is the most effective way to improve outcomes for disadvantaged pupils. By doing so, we will inevitably benefit non-eligible pupils as well.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2020 to 2021 academic year.

At Grove House Primary School pupil premium money is used to address barriers to learning in order to improve educational outcomes. In 2021 - 2022, we introduced a range of after-school clubs that were offered to all pupils.

Last year we began to develop an enhanced SEMH provision that includes a sensory room, an Atelier, a quiet study space and a nurture room. 13 children with SEMH and /or additional needs who are also pupil premium accessed this provision as well as a large number of non-pupil premium children and our plan is to develop this provision further this year.

Over last year more than 24 pupil premium families' accessed after-school clubs **104** pupils received support with uniform and received school jumpers or cardigans. The Headteacher, DHT and attendance officer have dedicated time each day to discuss attendance. Together, and this year alongside the Local Authority Attendance Lead they have rigorously worked on attendance issues, contacting parents, offering support and signposting them to other agencies in order to improve attendance. The attendance officer has provided individual support to many families to remove barriers to learning and address social, emotional and mental health issues. Residential visits were subsidised for pupils in receipt of pupil premium to widen their life experiences and provide life long memories. All Pupil Premium pupils attended the year group trips from Reception to Year 6. A number of pupils who are pupil premium also have special educational needs and school ensured that all children had equal opportunity to access all school visits. Employing a full time DHT who is responsible for SEND and Inclusion, and additional support from SEND specialist teachers and services when required to process complex EHC applications and training needs ensures our inclusion agenda remains a high priority.
